

A Proven Telematics Solution for NBIS policyholders

Maximize efficiency, reduce costs, and increase profits with telematics

NBIS Driver Insights, powered by Octo, is one of the most dominant telematics solutions on the market today. It's now available to NBIS policyholders at a discounted cost.

Implementing a telematics solution improves the efficiency and productivity of your fleet. It also helps your company reduce its overall fuel consumption, improve driver safety, and limit unauthorized asset utilization by leveraging location and driver behavior data. Telematics also help you:

- Know where your vehicles are at all times, from anywhere
- Serve customers better with accurate and intelligent logistics
- Improve driver safety and prevent accidents using contextual driving behavior data

A powerful, intuitive fleet-management dashboard

NBIS Driver Insights' interactive fleet-management console provides vehicle and driver behavior data at the individual, fleet segment, or entire fleet level. The console helps locate vehicles, monitor performance, and support drivers using real-time location, usage, and vehicle health data. The fleet-management console also helps:

- Manage vehicles, costs, and maintenance
- Improve driver behavior
- Provide roadside, emergency, and crash support to drivers

Three reasons to implement NBIS Driver Insights:

REDUCE RISK

Reduce driving risk through tailored feedback based on actual driving behavior while also curbing unauthorized asset utilization through location monitoring, geofences, and curfews.

IMPROVE FLEET MANAGEMENT

Improve fleet efficiency and effectiveness with better visibility into where your vehicles are, how they are being used, and who is driving them.

REDUCE FLEET TOC

Drive down the total cost of ownership for your fleets with detailed asset and trend reporting, resulting in lower fuel usage, fewer accidents, and better maintenance.

The benefits of telematics are no longer theoretical – they're now tried and true and part of the NBIS bundle of risk management services. For more information on systems and the NBIS Driver Insights Program, **visit NBIS.com or call 1.877.860.RMSS (7677).**
